LEGENDARY PERFORMANCE

REVOLUTIONARY DESIGN

You've simply never seen a hot tub that looks like this. The weatherproof Curvalux™ exterior mimics the weave texture of designer outdoor furniture, accented by the glow of innovative exterior corner lights. Multi-color internal lights behind dual waterfalls fuse sight and sound. And a concealed clip skirt system even eases maintenance access without compromising the clean lines. Made with the quality for which the Jacuzzi® Brand is known, the J-500™ Collection is as much of a design piece as it is a dynamic hydromassage experience.

INNOVATIVE TECHNOLOGY

The J-500™ Collection is also the most technologically advanced hot tub we've ever made. The ProTouch™ control is the first water-proof glass touch screen control on a hot tub. Our integrated smartphone app allows you to heat up the water on your way home, activate maintenance reminders and even alert both you and your local dealership of any service needs. The fiber optic ProEdge™ lighting technology only uses a single LED bulb on the inside perimeter to make your hot tub glow evenly. Thanks to the latest technology, this collection is also the smartest.
